

## PRESS RELEASE

## DSEI London 2025

### Marine Alutech is exhibiting at DSEI London 2025

Marine Alutech is the global specialist for fast, high-quality, cutting-edge boats that Maritime Defence, Security and Safety Authorities demand.

Marine Alutech provides complete end-to-end project management in-house: bespoke design, building, system integration, training, aftersales care – even technology transfers. Marine Alutech boats, concepts and solutions are made for an extensive lifetime of heavy use. For more than 40 years, they are renown as the Watercat® brand worldwide.

Marine Alutech's boats are ideally suited for Military and Law enforcement missions. The high-speed vessels range up to 60 knots and are manufactured in aluminium alloy and / or high-tech composite materials. The company has successfully delivered over 500 vessels since 1985.

Marine Alutech is located at stand **S9-280** where we are presenting our innovative range of maritime security- and uncrewed solutions.
